

Audiovisual material for Chapter 6 - Augmentation of walking activities with the mobile phone

Antonio De Sena, Friday 02 October 2009 - 11:52:53

Videos (format: xvid, mp3):

All videos but the first refer to drag/friction/drift walking type.

The first one is related to experiments about sinusoids with frequency drove by acceleration values.

Experiment on sine frequency and acceleration (NokiaInHandNiw.avi)

Drag Experiment n.1 (NokiaDrag01.avi)

Drag Experiment n.2 (NokiaDrag02.avi)

Drag Experiment n.3 (NokiaDrag03.avi)

Pictures:

Three pictures to describe how the mobile phone is attached to one leg.

Leg Setup n.1:

Leg Setup n.2:

Leg Setup n.3:

And three pictures to show the application running:

The Application is Running... n.1:

The Application is Running... n.2:

The Application is Running... n.3:
