=====

**HOW TO GET THERE FROM THE UDINE TRAIN STATION:**

i) buy some bus tickets (at least two; four if you join the entire meeting) at the ticket store across the main road, right behind the bus stop opposite of the station

ii) go to the bus stop exactly nearby

iii) take the 10 Circolare (Destra, if I remember well, but Sinistra would bring you there anyway in longer time). Only during peak student hours there is also a "SPECIALE UNIVERSITA", quite faster

iv) after a while off the city center you will note an isolated pink, wet building with blue window frames. When the road becomes narrow and winding, if needed call for the stop and get off with the students

v) the building is a good example of the possibility to cancel human orientation. It has been designed by an architect with a record in prison design. I will put ads along the way
